Microsoft Excel	★★★★★
Microsoft Power BI	★★★★☆

ACHIEVEMENTS

Data Query

Used SQL and NoSQL to identify over 200 dormant trade customers, leading to an exercise that successfully reactivated 100+ accounts.

Big data analysis

Completed a trade industry analysis that resulted in a +3.5% increment in the market share of FCMB in trade volume H1 2019.

Report Automation

Built an automated data reporting system in Excel and MS BI to render daily FX returns report to CBN resulting in zero sanction on the bank.

Cloud Migration

Acted as the data strategist on the team that successfully migrated FCMB digital assets from on-premises to the cloud.

Godwin Abah

Data analyst|BI analyst |Cloud Practitioner

PERSONAL STATEMENT

I am a Google and IBM certified data and business intelligence analyst with 4+ years of experience collecting, analyzing, and interpreting data to drive successful business decisions. I have proficient knowledge in cloud architecture, design and administration. My career objective is to build a long fulfilling career and working with a team of innovative and data-driven professionals.
